To bring together leading
downstream industry players,
fostering knowledge-sharing,
best practices and collaboration
to advance the industry and
generate mutual benefits

FOUNDING COMPANIES / PARTNERS

WHAT IS IDCE 2025?

The leading platform for global downstream professionals to connect, innovate, and drive industry progress. Featuring a dynamic **conference**, a cutting-edge **exhibition**, and expert-led **technical** sessions, the event fosters collaboration, investment, and sustainable solutions for the future.

CONFERENCE

- platform for industry insights.
- Driving collaboration, innovation, and the sharing of best practices.
- Top industry experts delivering key discussions on the downstream sector.

EXHIBITION

- A showcase of the latest technologies and industry solutions.
- Partnerships with key stakeholders, investors, and innovators.
- Facilitating networking and business growth opportunities.

TECHNICAL Sessions

- Expert-led discussions on industry advancements and solutions.
- Covers refining, petrochemicals, sustainability, and operational efficiency.
- Focuses on enhancing safety, performance, and environmental impact.

IDCE 2025 CONFERENCE

The flagship event for the downstream industry, bringing together leaders, experts, and innovators to shape the future of refining, petrochemicals, and sustainability. With cutting-edge insights, groundbreaking discussions, and unrivaled networking opportunities, participants gain strategic knowledge, discover emerging technologies, and forge powerful connections that drive collaboration, career growth and business success.

The conference will feature more over 203 expert speakers and is expected to attract more than 6,270 visitors throughout its duration. With Over 10 diverse activities and engagement opportunities, the 2025 edition is set to establish new benchmarks for knowledge exchange and collaboration.

The upcoming edition will be power-packed with visionary leaders, breakthrough innovations, cutting-edge technologies and trends, with sharing best practices, and strengthened relationships, all with a focus on next-generation talent.

IDCE 2025 EXHIBITION

The ultimate marketplace where industry leaders, solution providers, and decision-makers connect, collaborate, and unlock new opportunities. With top-tier exhibitors showcasing breakthrough technologies and cutting-edge solutions, participants gain exclusive access to strategic partnerships, investment opportunities, and industry-shaping innovations that drive business success.

The IDCE 2025 exhibition will feature over 150 companies from 53 countries, providing a premier platform for industry networking and highlighting the latest advancements in downstream innovations. The exhibition is expected to attract more than 1,500 trade visitors and 190 media and press representatives, creating a dynamic environment for collaboration and business development.

From live demonstrations to hands-on product experiences, the exhibition will serve as a catalyst for growth, fostering impactful collaborations that accelerate progress in refining, petrochemicals, and sustainability. With interactive demos, and dedicated networking hubs, an unparalleled exhibition experience sets new benchmarks for the industry.

IDCE 2025 TECHNICAL SESSIONS

The hub of technical excellence, where industry experts, researchers, and young talents present groundbreaking studies, innovative technologies, and real-world case analyses in refining, petrochemicals, and sustainability. Participants gain deep technical know-how, proven methodologies, and cutting-edge solutions that help tackle industry challenges, optimize operations, and drive efficiency.

The 2025 edition will offer an enriching learning experience for over 550 students, providing them with the opportunity to gain valuable technical insights directly from industry experts. Through a series of expert-led presentations, students will be exposed to the latest technologies, innovative practices, and real-world case studies shaping the future of the downstream sector. This unique experience will allow students to engage with industry leaders, ask questions, and acquire practical knowledge that will enhance their careers in refining, petrochemicals, and sustainability.

The upcoming Technical Paper Session promises to be more dynamic and impactful than ever. Expect expanded focus on emerging technologies, advanced research, and innovative solutions addressing the most pressing challenges in the downstream industry.
